

Containers for Change for Schools

CONTAINERS FOR CHANGE

Reduce litter and
plastic pollution
in the
environment

Ensure all
containers
receiving a
refund are
recycled

Increased
business and
employment
opportunities

Protection of
Queensland's
beautiful marine
life

Provide
fundraising
opportunities for
community
groups and
charities

OUR MISSION

We're on a mission to prevent drink containers from ending up as waste, saving them from landfills and oceans. Because if we don't look after our environment, what have we got?

We do this by putting the correct containers in the green bins that you will see around the school.

And we transform every container into a resource with a new lease of life.

We empower people to be the change.

Collecting the right containers

**ARE YOU
RECYCLING RIGHT?**

What goes into the green bin

Every eligible container is worth **10¢** to our school.

The importance of Recycling

The Circular Economy

*Cheers to
the change makers.*
